

# RESOPAL SPASTYLING® CONNECTION PROFILE (H PROFILE) PRODUCT DATA SHEET

RESOPAL SpaStyling Connection Profile (H profile) is a glossy silver aluminium profile.

## 1. Area of application

RESOPAL SpaStyling Connection Profile (H profile) is an aluminium profile for connecting two RESOPAL SpaStyling BOARDS.

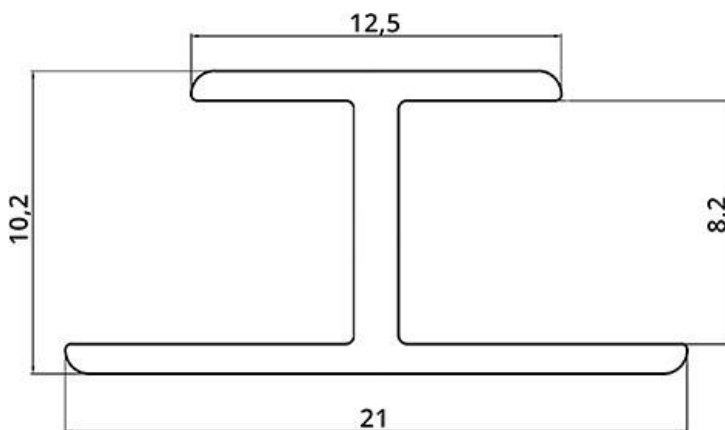

## 2. Instructions for use

Apply RESOPAL SpaStyling connection adhesive to RESOPAL SpaStyling Connection Profile (H profile) profile openings ensuring precise application. Then the profile should be pressed against the long side of the RESOPAL SpaStyling BOARD. It is essential for the joint between profile and RESOPAL SpaStyling Board to be water-proof. Any RESOPAL SpaStyling connection adhesive oozing out from the profiles must be removed from the surface immediately.

More detailed information for use of RESOPAL SpaStyling BOARD can be found in the RESOPAL SpaStyling processing instructions.

## 3. Profile cross section - length 3050 mm
